

Video 195: Q&A Session #42

by Wes Penre and Ariel Glad, November 29, 2019

The video to this transcript can be found on our Video channel under each video, respectively:

<https://wespenrevideos.com>

It is time for a Q&A Session. Thanks for all the questions. Please submit new ones at wespenreproductions@gmail.com and put “Q&A” in the subject line, so we won’t miss your email.

QUESTION 1: I wonder if an OBE-er can now go thru the Grid, which I understand holds back our physical body, but maybe not the second body? Also, Tom Campbell describes having studied our universe "outside of it." Do you think he is referring to the REAL outside?

Video 195: Q&A Session #42

ANSWER: You can't go through the Grid without being deceased because you're still connected through the silver cord between your body and your light-bodies. That needs to break first, which it only does when the body expires.

No, we do not think Tom Campbell is referring to the REAL outside universe. Keep in mind that within this construct are almost infinite simulations, both physical and nonphysical, for experience and exploration. In these nonphysical realms within our construct, the possibilities of what we can experience may take a person far, far away and into the depths of "space", so to speak. However, as vast and as amazing as it may seem, it is still contained within this Matrix/Patrix. If a person does not go through the grid immediately after the moment of death, then they have not exited this matrix. In other words, if we do not experience physical death, we cannot go out. The only ones who may have come close, that we know of, were a pair of researchers named Jonathan Dilas and Shiva Suraya. Apparently, they have "seen" the grid, with its holes, and attempted to exit one of these holes but were pulled back.

QUESTION 2: You are correct in all the scenarios regarding fire-walls, 'As above, so below'; my question is: why do you think there is not enough fire-soul/energy to build a grid outside the Solar system? Do you think we are too traumatized? Have we been recycled too many times? As you stated: every time we come back here we are lesser in energy than when we first started. Or is Enki just going along with Occam's Razor (novacula Occami)/Kiss Principle: Keep it simple, stupid/Keep it stupid simple; I notice he does things in a sloppy way... the least amount of energy is his mantra.

ANSWER: The Overlords need to carefully distribute the soul-fire they steal from us. Some, they use as food, others they use to maintain the Construct, build portals (like remote viewer, Brett Stuart, mentioned in his video "Moksha"), and some of it is used for other various purposes. If they would extend the firewall to surround the entire solar system, it would not be enough, we would think—particularly because human souls are no longer in connection with the Greater Universe/KHAA, where souls usually refuel their soul energy. Humans, who are still ignorant, just recycle their soul energy within the System. However, we are

currently looking into this in more detail, so we'll see what more we can find on this subject.

QUESTION 3: Once I had an experience where I was partly moving out of my body. It scared the sh** out of me. I was right back in. I also have a fear of height. Like jumping out of a plane would induce extreme fear in me. I wonder whether people who have out of body experiences have no fear of falling from high places. Could my fear of height prevent me of having an OBE? And could my fear of height prevent me from leaving through a hole in the grid?

ANSWER: Yes, ANY fear you have can prevent you from having an OBE. Fear of height is something we might experience here in the Matrix because we have trauma related to it—either from our current lifetime or through our ancestry. An ancestor might have experienced huge trauma in regard to heights, which can affect YOU in your current life through your ancestral DNA.

We do bring fears with us when we die because we still have our artificial soul, which we won't get rid of until we have exited. We can't get rid of all our fear while we're still on Earth, and that's one reason why it's so important to go through the Grid ASAP after body death. Don't stop and think—just do it! The desire/intention to go through the Grid must be stronger than our fears.

QUESTION 4: If Enki's fire has been removed by the Queen, how is he able to distribute himself as Marduk and all other deities through history? And how on earth does one remove the fire from another entity... such as the case with the Queen and Enki?

ANSWER: The Queen removed En.ki's creative abilities only. He is still a soul and can use much of its properties, e.g. to split himself. Also, Marduk was born long before the Invasion of Tiamat, so the splitting of En.ki's soul, resulting in Marduk, is not relevant in this case. However, he can still split himself because that has nothing to do with his creative abilities.

The Queen has the technology to remove the creative abilities. How it's done is beyond our scope of understanding—we don't comprehend the Orion technology. It is our understanding that the Overlords lack a functioning avatar, which means that they need to create artificial bodies (A.I.). This is where the idea of them being

Video 195: Q&A Session #42

archons probably comes from. These bodies are not 3-D in the sense that we can see them, and they can jump bodies, as well. However, they can't nano-travel in the KHAA—they need their hollowed-out asteroids and stargates/portals in order to travel any significant distances.

QUESTION 5: You are absolutely correct with the time-loops equating to t.v. reruns, but, why in this 'time' have 'some' been allowed to gain knowledge through your works? Do you suppose your true 'YOU' has made it through the grid in another time-line and is 'now' opening up the flood gates for others to escape as well?

ANSWER: The Overlords are not overly concerned about my/our work. We don't think they believe many people will actually go through the Grid—not even among those who are aware. And they might be correct—many people who are determined to exit after death will probably, out of fear and attachments, choose what they consider the “easy way out” and go through the Tunnel. It's “known” territory, while the KHAA is unknown. The unknown scares people.

One thing we can be certain about is that the information and guidance to go out through the grid has only been made available in this specific time loop. We can only suspect that it is a combination of intention, the Law of Attraction, and the willingness of the one who gave us this information which makes it possible for those of us who are searching to have this information. No flood gates have been opened and the only ones who will receive this information are the ones who are looking for a way to get out. We are a very, very small group, it seems.

QUESTION 6: Why do you call this primitive bastards Lords? This is what they want!

ANSWER: It's because that's what they call themselves in the KHAA and within the Construct. They call each other Lords. We want to be as accurate as possible and doesn't have anything to do with being intimidated or worship on our part. The Sirians call themselves Khan Kings, as well, which is their titles in the Greater Universe, as well as within this construct.

“Lord” is a title, nothing more. It has no more meaning than the one we give it. We call someone Professor Smith because that is his station and his occupation. We

Video 195: Q&A Session #42

also call someone “mister” or “miss”, but these don’t necessarily hold any position of authority other than the position we allow them to have. No one is obligated to use titles of any kind if they don’t want to. If Lord leaves a bad taste in your mouth, then that is because of an association that YOU are giving to this word. Otherwise, it’s just a word.

QUESTION 7: We humans (not just the Global Elite bloodlines) have done some terrible things to each other throughout history. How important is it for us to forgive each other in these times? I suspect that we get most of our attributes and our behavior from The AIF because we have they're DNA and our repeating what they did to us to ourselves.

ANSWER: The best way to go about this is for each one of us to forgive ourselves. We are living in a continuous present NOW, so there is no past or future, if we look at it from the ultimate perspective. It’s not what we did in the past that’s important—it’s how we change in every present now. Thus, we should look at who we are NOW, and if we don’t like who we are and what we’re doing, we have the opportunity to change and become a new and better person. That’s what matters.

Then, try to work on your relationships to the extent that you can be at peace with them, in whatever way feels best to you. That is all that is needed. We do not need to feel obligated to love everyone or forgive everyone. What matters most is that you are able to live your life with as much joy, inner-peace, and control over your own affairs to the largest extent possible. However you do that is up to you.

QUESTION 8: When the Tiamaat catastrophe occurred The Olympians (AIF) used advanced weapons to strike the planet. What I am stuck or in a little loop about is; how did the species that En.ki and his team of scientist genetically manipulated survive? This of course includes the various hominids created by the Vegans and the Namlu’u created by The Queen of the Stars. When En.ki was on Tiamaat; did he secretly preserve the DNA of these species in different parts of the solar system? The part of Tiamaat that flew closer to the Sun, did that part have the surviving lifeforms that possibly went underground to survive?

ANSWER: Nothing on Tiamaat and Mars survived the Invasion in a physical sense, except a few who managed to escape through the Saturn stargate before the

Video 195: Q&A Session #42

Overlords closed it. Yes, the genetic library was left behind in this solar system by the Orions, who had to flee or get killed. So, En.ki had access to all that when the war was over. The remnants of Tiamaat carried to life, but many lifeforms were petrified in the process, and we can still see the petrification here on Earth today.

QUESTION 9: Is the current accumulation of the present insanity and chaos and mind overload to do something with suddenly all perspective or viewpoints being present all sudden at once, creating like a big kind of cable mess?

ANSWER: The chaos and confusion is intentionally created by the top echelons of the Global Elite, who take their orders directly from the Overlords. They want us confused and distracted, so we can't see what is really happening. Also, they want us to fear this physical reality so we escape into the Virtual Reality we have created for ourselves. The Virtual Reality will be the next Construct, which will replace this one. We will talk more about that in an upcoming video.

Also, we are likely in the era of what is known or commonly called the Apocalypse. This word means the "unveiling". With so many perspectives available and at the fore-front of the collective consciousness, it can seem very chaotic. This also works at an internal level as well as external. Those things which we have hidden deep inside of ourselves will almost certainly be revealed for us to deal with. For those who are not aware that this is happening to them, it makes their lives seem more chaotic and they may be in despair.

QUESTION 10: Knowing that we must vacate our consciousness from the planet altogether and not risk coming near, will we even be able to see how things unfold on Earth? Would we ever be able to 'see' them again? Are our respective higher selves communicating?

ANSWER: If we really want to help those who are left behind here, the best thing we can do is to exit through the Grid, and if we want to, we can go to Orion and talk to the Queen and Her Council, presenting our case and explain what is REALLY going on here on Earth. Hopefully, when we humans get the chance to tell our story, we can also be part of the solution, i.e. we might be able to discuss a plan what to do about this situation. Like Einstein said (and we paraphrase), "A problem cannot be solved from the same level it was created." This means, we

Video 195: Q&A Session #42

need to step out of the Patrix (which is the “problem”) and look at things from an outside perspective/dimension. We will be able to see a much bigger picture when we’re no longer stuck here.

Your Higher Self is always communicating with you. It is never something which is separate or apart from you. As for whether we will have the perspective to know what is going on here after we leave, yes we probably will, if we choose to know. We don’t know if we, who get out, will be able to connect with those who are in, or if we will be purely in an observational perspective. If we only base it on what we have experienced so far, we would say it will only be from an observational perspective. To interfere in any way would be a violation. If we don’t understand why this would be the case, now, we can rest assured that we will understand this cosmic code at a deeper level once we are out.

Consider watching this video to the final end, so you don’t miss out on our video mini-series about the planet Tiamat and the story of humankind. If you missed earlier episodes, the mini-series started with Episode 1 at the end of Video 187. There will be one episode at the end of each of these YouTube videos from hereon. Hope you’ll find them interesting!
