

How Remote Viewing Works and a Summary of our Human Experience

The following video by CryptoViewing's Dick Allgire is quite interesting. Here, he explains in his own terms how remote viewing works and why, but in addition to that, he also goes deeper and summarizes the human experience on this planet and who is in control. He is discussing this in a very understandable manner that I found intriguing.

He is talking about the "ET" control and how they do it remotely. He explains how these ETs/"gods" overlook what we are doing here on Earth, and how they direct things through specific bloodlines, and how these bloodlines execute the will of these "ETs."

I don't think Dick has dug into the Gnostic material, but the way he explains things corresponds to a large degree both with the Gnostic texts and the Wes Penre Papers.

So, Dick is telling us that the "ETs" are watching us and our "progress," and they feed off our energy, etc. Now, add to this the archontic attachments we all have in our bodies¹. Each body on Earth has them, which very much makes it possible for the Archons to "monitor" and affect everyone separately if they wish.

Usually, the Archons (ETs) are not particularly interested in following each individual's progress while we are here on Earth, but technically they have the opportunity to do so. And because each of us humans have a subconscious mind, and these archontic attachments are direct lines of communication between our subconscious and numerous archons, controlling us is a piece of cake because most of it happens on a subconscious level and is automatic programming. Much of our subconscious reactions are due to past traumas, but these traumas, stuck in time and space and within the overall field of consciousness, these traumas can also be used by archontic forces attached to us. Isn't that how MK ULTRA mind control works, but on the level, human programmer versus human victim?

This is the reason why it is so important to do our "inner work." We need to take back our self-control and learn what is a subconscious reaction and a conscious action made from making a conscious and well-calculated choice. If we cannot distinguish between the two and constantly react subconsciously to our environment instead of observing it and act after some consideration, we are in the grip of the Archons. Therefore, the only way to break free from the puppet-on-a-string existence is to become self-aware and ultimately receive Gnosis, i.e., reconnect to our Higher Self/Spirit. Gnosis means "Knowledge" in Greek, and we need Knowledge in order to be truly conscious and be capable of connecting with the Spiritual Realm through our "Energetic Heart." A Spiritual Reconnection is not intellectual—it is *felt*.
