Welcome to Q&A Session #101! I need more questions for future Q&As, so please submit to wespenre2@gmail.com and put Q&A in the subject line, so I won't miss your questions. You can submit multiple questions if you like. Now, here we go:

QUESTION 1: You recently spoke about the Archons going to war against Orion, which is the universe outside the Matrix. Could you please explain about the Orion that the Orion lines.com speaks of as the ETs that are abducting and killing humans, i.e., the grey beings that mutilate and eat humans and are connected to the military Dumbs? It is difficult to separate Orion from the negative ETs and Orion outside of the Kenoma.

MY COMMENT: This Construct/Matrix is controlled by negative beings who do not have our best interest in mind, and they need to manipulate us and right out lie to us, when necessary, in order to stay in control over us. Therefore, most of the things we learn in this Matrix is inverted or reversed. Orion is the term for the Greater Universe, i.e., the universe outside our Matrix, the Matrix being a closed system. So, there are only two main places: the Matrix and Orion. So, those who bad-mouth Orion are bad-mouthing the entire Universe.

The Greys people are talking about are artificial "spacesuits," you could say. They are made of a material that can more easily withstand the harsh conditions in "space." So, certain negative

entities/souls inhabit these spacesuits when roaming in the Matrix system. They don't eat or procreate—they are more like “worker bees” for those higher up in the ET community.

I would say that most alien abductions are done by the Military on behalf of the Khan Kings/Archons/Sirian Alliance. Very rarely are real ETs involved physically. False memories are then imprinted into the victim, who thinks they are being abducted by aliens. The Military is doing experiments for the purpose of the Singularity and because of orders coming from above, so to speak.

QUESTION 2: Is the Orion Universe located in the subquantum realm from the perspective of the Kenoma? You mentioned before that Orion is comprised of Dark Matter and Dark Energy.

MY COMMENT: Yes, you could say that. Orion, which is the “real” Universe, to use this term, is located in the nano world. The stars and galaxies you see in the sky are just 4% of the real universe, and it's superimposed in a sense. We are blind to 96% of the Universe, which exists on a nano level. To be able to see and perceive the entire Universe, i.e., Orion, we need to first leave the Matrix. In other words, the Greater Universe, Orion, exists on a soul level—the soul being of nano-size.

QUESTION 3: Hypothetically, if all the Archons, including Yaldabaoth, were suddenly destroyed/terminated permanently right now, what would happen to the Kenoma? Would it be destroyed suddenly?

MY COMMENT: The Kenoma/solar system would fall apart. The “darkness” here would turn into light, and our Construct would be absorbed by the Greater Universe. It would once again be part of the greater landmass, which I call Gaia, on which we, the Namlu'u/Aryan human race originated in 3D. So, the Kenoma would be destroyed, and everything inside here would be absorbed, including human bodies. In other words, everybody would experience physical death. See the Gnostic text, “On the Origin of the World,” and scroll down to the section, “The Consummation of the Age.” You find this text at gnosis.org. See transcript to this video for exact URL.¹

QUESTION 4: I often hear people in the spiritual arena saying they are from different places like Arcturus, the Pleiades, or any other star system. It's a little confusing, we are all from source, not individual places. I get that we spend time in certain places and the memories are strong. Am I on the wrong track with my thinking?

MY COMMENT: It's true that we are all ultimately from Source, but we are also individuated units of consciousness, aka spirited souls. Therefore, souls can originate in different star systems and asterisms. Usually, soul groups or star races start out being born inside stars/suns. That's where souls are born and evolving. I know this is controversial because it does not correspond with mainstream astronomy and astrophysics, but to understand this better, I suggest reading my Wes Penre Papers at <https://wespenre.com>. Then it will make more sense. Nothing is what it seems and what we have learned in school, etc.

QUESTION 5: Can you please explain the difference between the Patrix/Matrix/Kenoma vs the Greater Universe? Since the Patrix is equivalent to the solar system or the Seven Heavens, then what about the star systems in the hands of the AIF that you wrote about in Level 5, are these conquered asterisms such as Ursa Minor, Hydra, Sirius and Alpha Draconis (Thuban) existing in the 8th heaven? There is no doubly 3-D life in these locations, so is everything that is physical, including 3-D worlds outside the solar system, the physical universe but outside the Patrix? What exactly is the 4% universe? Can you please elaborate on these things!?

MY COMMENT: Yes, the Patrix, i.e., the Matrix, is an enclosed system in which we are contained at the moment. In the Gnostic texts, it's called the Kenoma and comprises the solar system with Saturn as the 7th Heaven. Outside the 7th Heaven is the 8th Heaven, which would correspond with Orion in the Wes Penre Papers (WPP). The Kenoma is also the abode of the Archons and certain star races who serve them.

The 4% Universe is the universe we can see with our eyes and through telescopes, comprising a lot of star systems and galaxies. It seems like a gigantic universe, but it's still only 4% of the entire Orion Universe or Greater Universe, as I sometimes call it. The 96% we cannot perceive of with our limited 3D five senses.

All these star systems we see from Earth are not specifically mentioned in the Gnostic texts, but they are mentioned in the WPP—particularly in The Fifth Level of Learning. Everything that emits visible light for us humans (the visible light bandwidth of the electromagnetic spectrum) is of the 4% Universe. The Archons and their Minions do have access to the 4% Universe via us. We unwittingly provide them with our soul energy, and part of that collective soul energy is made to energize certain stargates or portals, which the Archontic forces can use to travel to the parts of Orion/the KHAA that are “lit up,” i.e., the 4% Universe. So, one could say the entire 4% Universe is part of the Kenoma in a sense. It's just that it was not mentioned in the Gnostic texts.

QUESTION 6: Eve bore Cain from Yaldabaoth. Then, who is the father of Abel? One of the other Overlords? Certainly, he did not come from Adam, since he was a hybrid or could I be wrong here?

MY COMMENT: Yaldabaoth was the father of both Cain and Abel, according to the Gnostic texts. Seth, the third son, was the first human born from Eve that was not a hybrid.
