Here is a new Q&A session—the second for August. Thank you for your questions, and everybody, feel free to submit more at [wespenre2@gmail.com](mailto:wespenre2@gmail.com), and put Q&A in the subject line.

Here are today's questions:

QUESTION 1: What happens when a soul dies, like being killed in the invasion of Orion? Do they still have their consciousness after that?

COMMENT: If the human souls are ridden by the Khan Kings, i.e., our souls are so manipulated and unconscious that the Invaders can be completely in charge of our soul and mind, and they manage to leave the Matrix with our help and attack Orion, these human souls are in great danger. If Orion does not see any other solution, they need to terminate both the human souls and the Khan Kings riding them. This means, both the Khans and the humans will split in a trillion pieces and will be unable to form an avatar/soul again, and those individuals reunite and integrate with the cosmic waters and become one with the

cosmic ocean again. So, they will lose their individuality/consciousness after that. Hopefully, this will not happen.

The biggest threat to humanity is the Metaverse and the Singularity. This is where the human souls will be trapped, and then the Khans will use us to attack Orion. For a lot more information, see my book, *Synthetic Super Intelligence and the Transmutation of Humankind: A Roadmap to the Singularity and Beyond*, which can be ordered from amazon.com<sup>1</sup>.

QUESTION 2: Assuming we all live in a matrix, how did we originally get to agree to experience the 1st incarnation here, before repeating upon death, thereafter?

COMMENT: We didn't agree to anything, and that is when the first cosmic crime was committed against humanity. We are still prisoners of war. Our original planet was Tiamat, located between Mars and Jupiter. We lived there in harmony and peace until the Khan Kings and the other Invaders, with En.ki and Marduk being the leaders, attacked and destroyed the planet. Some humans managed to flee from the solar system with help from Orion, but many humans got trapped here. We, the spirited humans living on Earth today are these trapped souls, and we have been here ever since, being continuously recycled after each death, and we are programmed to experience amnesia. So, we are prisoners of war, and we don't even know it. There is a way out, however, which is "going through the Grid," something I have discussed how to accomplish at length in the *Wes Penre Papers* (WPP), on the blog at [wespenrevideos.com](http://wespenrevideos.com), and on my forum at [wespenreboards.com](http://wespenreboards.com).

QUESTION 3: In the newest TMNT (Teenage Mutant Ninja Turtles) videogame, when you control/use Master Splinter when he falls into a hole, sewer pipe, or otherwise, he goes "I must head towards the light!" I've heard the tunnel of light referenced in the media numerous times within the last two years alone. Some people claim they've never heard of a tunnel of light, but that comes mostly from Christian people and of course the tunnel of light won't be mentioned in the bible. Does the constant mention of the tunnel have something to do with the mass consciousness, which is why they mention it so much?

COMMENT: Yes, people are figuring things out. I think that by now, more and more people believe in reincarnation, and there is a lot of information about astral travel, etc. People are waking up to this. Therefore, it's very important both for the EL-ite and for the Khan Kings to present the afterlife in as positive light as possible. So, we have the so-called Near-Death Experiences (NDEs) of people who have "died" on the operation table, for example, and left their bodies. Their soul travels into the lower astral, and they either meet with someone, who portrays themselves as a divine being, or they go through the tunnel of light and meet a so-

called relative, or even Jesus or God on the other end, although these are just fake images. The discarnate is surrounded with overwhelming love that the Invaders have stolen for us and our soul energy, and because they feel so good, the discarnate soul does not want to leave. Then, the apparition on the other end tells them they must go back because their mission on Earth is not yet complete.

But here is the kicker: they are told to tell everybody about their fantastic experience in the afterlife. Why is that? Well, it's because they want those who read or hear about it to choose the tunnel after death, so they can be recycled here again and won't be able to exit the Matrix.

QUESTION 4: My loved one who passed away on 8.8.2021 was ignorant to everything, a man was conveniently Muslim in his culture and at ease with my western way of life. Is his soul trapped? If I speak to him, owls appear without fail. Is it a sign from him or AI, messing with my head?

COMMENT: Everybody is trapped in the reincarnation cycle, until they wake up to the fact that our reality on Earth and in the astral is a lie and an imprisonment of the mind through heavy manipulation and amnesia. Then they need to learn about the Grid and how to get out, or they will not be able to leave, despite the knowledge of how this Construct works.

Regarding the owls, this is apparently a common thing just before a so-called "alien abduction." However, these alien abductions are mostly military, and when they are done with the person, they implant false memories into their heads that they were abducted by ETs. It doesn't seem to me that you were abducted, though, so I don't know what the owls mean in your case.

QUESTION 5: I am a member of several grief groups and have noticed in photos shared in those groups that lots of young people who have died have had tattoos, especially those who have been addicts (parents have told so). I have read and heard that tattoos weaken our energy field and thus create holes in it, so our life energy flows out. Do you think it is that way?

COMMENT: Tattoos are attachments, and that is, of course, both literally and figuratively speaking. A man who tattoos "Mom" on his arm keeps an attachment to his mom for the rest of his life, even though he might live a normal adult life otherwise. But there will be an "unhealthy" attachment to the mother through the energies embedded in the tattoo—similar to sigils and symbols that are used in magic. They have certain entities and energies attached to them. Tattoos work similarly. Whether or not they are aware, many motorcycle clubs tattoo the name of the club on their backs or on other parts of their bodies, which strengthens their sworn-in lifelong attachment to the club.

My advice to those who have tattoos and want to leave the Matrix is to give the tattoos a thought or two to make sure they have unattached emotionally and mentally from whatever the tattoos symbolize.
