

Wes Penre Productions

Q&A Session #16, 2026 by Wes Penre, July 14, 2026

Welcome, and thank you for your questions! Please send more to wespenre2@gmail.com, including 'Q&A' in the subject line, so I don't miss your email.

Please keep your questions as brief as possible. I understand that sometimes it's not feasible to keep it short when conveying your message. Just doing your best is good enough.

To see my entire book collection, [please visit this link on Amazon.com](#) (and then click "see more" at the bottom of the page). Books are now translated into Spanish, German, Russian, Polish, and Estonian by various publishers, including Amazon. In 2026, we will most likely also see my books published in Romanian, one by one.

July 2026 News:

From this July and on, I will most likely reduce the number of Q&A Sessions from publishing more or less weekly to twice a month (around the first and 15th of the month). I will stick to the new schedule at least until I've finished my new book, "The Singularity is Clearer."

Your thoughts create your
reality. Change your thoughts,
create a new reality.

Christine Gail

Question #1: Hello, Wes. Isn't our sovereignty ultimately about who holds power over our existence—you yourself or something else? Is the individual self nothing more than an idea of who we are? Can an idea ever be the doer or the creator?

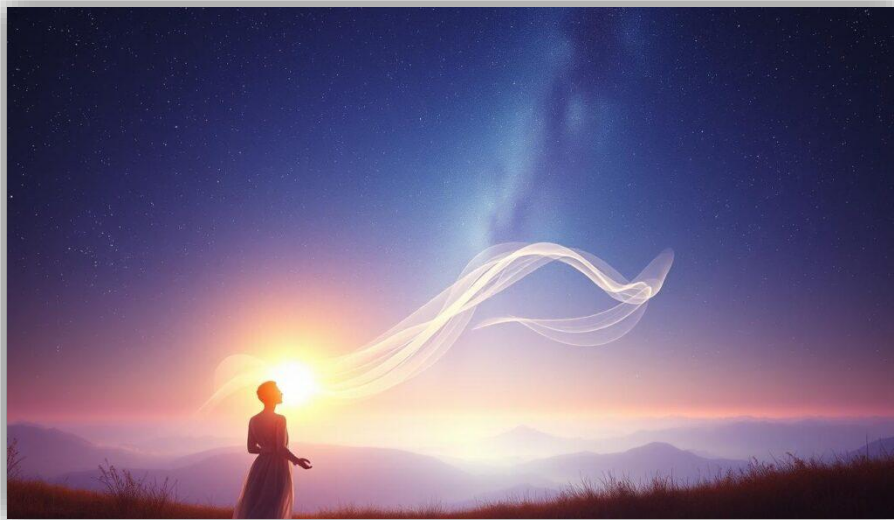

Comment: Life is Spirit, and Spirit is life. Without Spirit, the universe would be only dead matter (which is how it started). Sophia breathed her Spirit into Yaldabaoth and into the Kenoma (physical universe), then breathed Spirit (consciousness) into Adam, and 2-UCs were created. Pistis Sophia created the Kenoma in her Mind, but it was a “dead” creation. The Spirit she breathed into Yaldabaoth and the universe has been greatly depleted, since it's now only a remnant of Sophia's Spirit. This is why the Archons need our loosh (spirit energy) to survive.

The 3-UCs (Pneumatics) are direct splinters of the Aeon Geradamas, from which their spirit energy originates. Therefore, the 3-UCs can only be temporarily depleted of energy; they can replenish themselves fairly quickly. 2-UCs have a harder time, since their energy is limited to the remnants of Sophia's Spirit. Thus, we notice that 2-UCs often deplete their fellow man of energy (mostly unwittingly) to replenish.

Everything is “Mind.” Even the physical universe is a mind's creation (Sophia's). It is now populated with Spirit, who in turn create their own reality in the physical realm.

Question #2: If the Pleroma is a place of fullness and the only thing in reality that is real is spirit, then everything that is created is just a thought-based construct that doesn't really exist. Therefore, I would think that Pistis Sophia's creation wouldn't exist outside of the Pleroma because it is still part of the fullness.

If thought has no distance, space, or time, how could Pistis Sophia's creation be separate? It would still be a thought-based concept. Did I miss something on page 143 of your book, *Navigating the Nanoverse*? If the Pleroma is a place of fullness, then there could be no new thoughts about creation.

Comment: This is good thinking. As you point out, the Gnostic texts explain that the Pleroma is fullness; nothing new will be created there. This means the Pleroma will not expand: no new Aeons or "creatures" will be created. However, the Aeons can still create within their own Minds—that will not expand the Pleroma. It's still within its limits. There is no "outward" expansion.

So, what does it mean that Sophia created "outside" the Pleroma? It's an allegory the Gnostics used to explain the phenomenon in their time. The physical universe, as we know it, was created in Sophia's Mind, but when she saw what she had created (a dead universe), she was shocked and disgusted. So she buried her creation in the deepest regions of her Mind and veiled it in darkness, so the other Aeons wouldn't know she had created a dead universe, and without her consort. The Kenoma, therefore, is Sophia's "shadow side." After she hid the universe from herself, she also became partly trapped in it and couldn't retrieve it. She no longer had access to it.

Wes Penre Productions

Since the Pleroma is fulfilled and complete with eternal Light (Spirit), darkness has no place and can't affect the Pleroma's fullness—it can't exist there. Hence, we say that Sophia's darkness has no place in the Pleroma. Since it does not change the structure of the Pleroma or its Light, the story goes that the Kenoma exists in Sophia's VOID, apart from the Spirit Realm.

Question #3: The 3UCs, i.e., Geradamas, came from the Pleroma. The 2UCs and NPCs are created here. Are there any other 2UCs from Orion who have come here, like your contact, to help us? There are many theories on the internet claiming the presence of millions of such people called starseeds.

Another question is whether Pistis Sophia, the Orion Queen, can transform NPCs into 2UCs using her powers. My heart goes out to many of the NPCs I have met who are essentially good people, even though they have no interest in spirituality.

Comment: I have no knowledge about who is here and who is not, except for the people I have mentioned in my work. The term "starseed" is kind of elusive: it can mean different things, depending on who defines it. It's too complex to go into here, but even though there are those who come into a lifetime and rather quickly gain knowledge and perceptions beyond the five senses, there is also a lot of hocus-pocus in this field, and many fraudulent people who just want attention.

We, humans, are not here to be helped or saved. In fact, we are the saviors; we are here not to save ourselves but to help Sophia retract Spirit from the Kenoma so her creation can dissolve as if it had never existed. Humans don't need to be saved—we

Wes Penre Productions

already are saved. We are from the Pleroma, and all 3-UCs will return there one day. 2-UCs will go to their own "Pleroma," aka the Ogdoad.

Sophia is largely stuck here and has little power on her own in the physical realm (see my comments on Questions 1 and 2 above). She needs us to regain her power, and we need her to fulfill our mission. That's why we're here: to help Sophia regain the Spirit she left behind in this realm and defeat the Archons. Thus, the title of my book, "[Battles Between Shadow and Light](#)."

Question #4: I just found your books Orion and Orion 2 in Estonian, unfortunately only as ebooks, not in print. I was also pleasantly surprised that your Q&A is available in Estonian.

Anyway, I wanted to ask for your opinion on a person named Anthony William, aka Medical Medium, who hears (not channels) the spirit of compassion. It seems this spirit of compassion genuinely wants to help humans heal their physical bodies, but there is also information about asking angels for help. Is this spirit of compassion something from inside the Matrix?

Comment: I don't know anything about Anthony William, but from the little I learned from your question, it appears to be from inside the Matrix (if you mean the closed system that keeps humans trapped in the Earth environment and the immediate astral plane). However, there are archontic forces in the Matrix who want humans to heal and have strong bodies. There are also archontic factions fighting each other. The main opponents are En.ki and Marduk. Marduk wants the Singularity, and En.ki prefers

Wes Penre Productions

to keep humanity biological and close to nature. This doesn't mean any of those factions are beneficial to us; they are just different ways to keep us trapped.

If Anthony William "hears" voices inside his head that guide him, it is not Spirit speaking to him because Spirit does not bleed through as words or an array of thoughts; it enters as insights, memories, and flashes of a concept, devoid of words and thoughts.

Question #5: Hi Wes, hope all is well. I was wondering if you have any speculation about which planetary body the Artemis mission circled, slingshot around, and returned from? Or if it was even a planetary body, since in your research, we know they can't go out into the cosmic Waters and circle the real moon, I would imagine. Or again, this was a cosmic hoax, that they were all in on, like all the others NASA likes to perpetuate. Thank you.

It is interesting that they chose the name Artemis, Our Queen of the Stars!

Comment: Unfortunately, I haven't looked into the Artemis mission at all, so I can't answer your question. Perhaps some readers know more and have thoughts on it. If so, feel free to discuss it in the comment section for this Q&A session.
